Last Day

- 9:00 – 11:30 Quick intro, then… group work!
- 11:30 Discussion
- 12:40 – 13:00: Closing
- 13:00: Lunch, home, whatever!

Files and Resources

- Working on in! >>> will be added to the "new" workshop website

- You have all been invited to *two* github organizations as owners

- This is your sandbox; it will help us help you in the future.

- Need access? Any owner can add you.

What to do next?

- We looked at a lot the last 2 days.

- A bit overwhelming? We would not be surprised…

- Choose one thing to start with now.

- Now: identify Groups + Topics

- Can have a discussion on: assessment, group formation, git, Python, classroom setup … (?)

Closing − What to do next?

- Today was a great start
  - Continue with things one at a time
  - Iterate: observe, listen, improve, repeat.

- Use our material → CC BY

- Help each other.
  Proposal: start within IITM, then periodic online with us?

- Coming soon: email recap with links to files, resources. Short survey.

MUDE in Madras Workshop

3 days of fun with…

Robert Lanzafame, Alex Garzon Diaz, Sandra Verhagen

Civil Engineering and Geosciences Faculty

Delft University of Technology
